👤 PROFILE

Software Engineering graduate with experience building modern web applications using React, Next.js, TypeScript, and Node.js. Strong frontend focus with full-stack capabilities, committed to developing responsive, accessible, and maintainable software. Eager to contribute, learn, and grow in a collaborative engineering team.

🧠 SKILLS

Technical Skills: Frontend: React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, UI/UX, Figma, Responsive Design, Wireframing, Prototyping, Accessibility Basics, User-Centered Design, Backend, Node.js, Nest.js, REST APIs, Database, MongoDB, PostgreSQL

Soft Skills: Communication, Problem Solving, Team Collaboration, Adaptability, Attention to Detail

🌐 LANGUAGES

Amharic
English

📜 CERTIFICATES

Oracle Database Administration

💼 PROFESSIONAL EXPERIENCE

Intern, SciTech Valley

02/2025 – 09/2025 | Lebu, Addis Ababa

- Built 3+ React features for a customer-facing web app, improving navigation and reducing user friction in key workflows
- Built responsive React UI components using accessibility best practices (keyboard navigation, semantic HTML) in collaboration with designers.

Intern, CodeAlpha

03/2025 – 06/2025 | Remotely, India

- Built full-stack web features using React and Node.js, integrating REST APIs and improving UI responsiveness across devices.
- Converted Figma designs into reusable React components and worked in Agile team environment using Git-based workflows.

🎓 EDUCATION

Wolkite University, BSc in Software Engineering

06/2021 – 06/2026 | Wolkite, Ethiopia

📁 PROJECTS

Final year capstone — Digital Reporting Platform,

Anonymous reporting platform for trauma, bully and violence

10/2025 – 05/2026

- Built full-stack system using React, Nest.js, and PostgreSQL for real-time report submission and dashboard visualization
- Designed REST APIs and implemented data validation and structured database models
- Developed role-based dashboard to support data-driven decision-making for reports
- Improved reporting workflow speed by replacing manual processes with digital submission system

FidelLinks, Front-End & UI/UX Projects

08/2025 – 08/2025

- Converted Figma designs into responsive React UI
- Improved mobile navigation and accessibility (keyboard support, layout optimization)
- Focused on user onboarding flow and content structure

The Miracle Cars, Front-End & UI/UX Projects

07/2025 – 07/2025

- Built responsive vehicle catalog UI with filtering and search
- Created reusable components for product listings
- Optimized images and layout for performance and usability
